Your kind favor of 10<sup>th</sup> ult. was duly rec<sup>d</sup> and in accordance with your suggestion I immediately forwarded another copy of the New York Directory, namely on the 17<sup>th</sup> of Dec<sup>r</sup>. on about the 25<sup>th</sup> the Certificate of Deposit was rec<sup>d</sup> by me, but was filled up in the name of David — how this should have occurred is inexplicable to me; David is the name of my father who has been deceased several years, and the name is not to be found in any part of the Book: the Certificate being unless to me was returned through the mail on the 27<sup>th</sup> with a request that a new & correct one might be transmitted, this not having come to my hand I have taken the liberty of redressing myself to you; and would beg to call your attention to one point of the utmost importance to me, that the Certificate to be sent bear the same date with the one which was returned by me, as a few days after that date will include me

In conformity to the law for the encouragement of learning, by securing the copies of maps, charts, and books &c; I transmit to you the copy of the second edition of a Spanish grammar.

It is gratifying to my feelings to know, that while you have become the pride and glory of this great and flourishing Republic by those natural gifts you possess, and the number of services, which, at the sacrifice of every comfort, you have rendered to your country; you have not been insensible to the necessity and importance of languages. This consideration makes me hope, that you will perhaps snatch a few moments from that time which is so precious to you and to the nation; and read those parts which you may consider most worthy in this grammar. You are perfectly well acquainted with the Spanish language; and if this feeble production

## VALUABLE SCHOOL BOOKS.

Published and sold by Lincoln & Edmands, No. 59 Washington Street.

### Walker's School Dictionary,

Printed on a fine paper, and handsome stereotype plates. The great inconvenience in the common editions, arising from the intermixture of the I. & J. and W. & V. is remedied in this edition. \$1.25

### The Elements of Arithmetick,

An appropriate work for the young classes in schools, by question and answer. By James Robinson, Jr.  
"Boston, March 25, 1824. At a legal meeting of the School Committee this day:—Ordered, That Robinson's Elements of Arithmetick, by Question and Answer, be hereafter used by the third and fourth classes, in the writing department of the public Grammar and Writing Schools of this city." 12½ cts.  
E. Clapp, Sec. of the School Committee.

### The American Arithmetick,

By James Robinson, Jr. intended as a Sequel to the Elements. The work contains all the rules necessary to adapt it to Schools in cities and in the country, embracing Commission, Discount, Duties, Annuities, Barter, Gauging, Mechanical Powers, &c. &c. Although the work is put at a low price, it will be found to contain a greater quantity of matter than most of the School Arithmetics in general use. 75 cts.

**The Child's Assistant in the Art of Reading,**  
Containing a pleasing selection of Easy Readings for young children. Price 12½ cents.

### The Pronouncing Introduction,

Being Murray's Introduction, with accents, calculated to lead to a correct pronunciation, agreeably to Walker's System. 37½ cts.

### The Pronouncing English Reader,

Being Murray's Reader accented, divided into paragraphs, enriched with a frontispiece, exhibiting Walker's illustration of the inflections of the voice. The work is printed on fine paper, with stereotype plates.

### Dr. Adams's Geography,

A work highly approved, having passed through numerous editions, and obtained a general circulation in the United States. Accompanying the work is a neat and correct Atlas.

### Richardson's American Reader,

Consisting of Pieces selected wholly from American Authors. 37½ cts.

**The Pronouncing Bible,** in which all the proper names, and many other words, are accented as they ought to be pronounced, has just been issued from the press of Lincoln & Edmands, and is recommended by numerous literary gentlemen, as most happily adapted to promote a uniform and correct pronunciation agreeably to Walker's System.

In issuing the above works, it has been the object of the Publishers to elevate the style of School Books in typographical execution; and they cherish the expectation that Instructors and School Committees will, on examination, be disposed to patronise them.

### Temple's Arithmetick,

With additions and improvements, printed on fine paper. Ninth edition. To this edition are added about 150 questions for mental exercise, and questions on Arithmetick. 37½ cts.

### The Pronouncing Testament,

In which all the proper names, and numerous other words, are divided and accented, agreeably to Walker's Dictionary and Key. By Israel Alger, Jr. The Pronouncing Testament has probably contributed more to produce a uniform and correct pronunciation, than any other work extant. It has received numerous testimonials of approbation, and should obtain a place in every school and family.

### Conversations on Natural Philosophy,

With Questions for examination, additional notes and illustrations, a frontispiece representing the Solar System, &c. &c. being a greatly improved edition. By Rev. J. L. Blake. \$1.50

It is believed that Mrs. Bryan, the author of this work, has done more by its publication to promote the study of Natural Philosophy, among young people, than has been accomplished by all other works on the subject. Her familiar comparisons and illustrations interest and gain the attention of every reader.

### Alger's Murray,

A new and greatly improved edition of Murray's Grammar abridged, in which large additions of notes and rules are inserted from the larger work. 25 cts.

### The English Teacher,

In which Murray's Exercises and Key, are placed in opposite columns, with Rules and Observations from Murray's Grammar, furnishing a work of much value to teachers and private learners. By I. Alger, Jr. \$1.

### Murray's Exercises,

A new and much improved stereotype edition, by Israel Alger, Jr. 50 cts.

### Lincoln's Scripture Questions,

With the answers from Scripture annexed, a very appropriate work for Sabbath Schools and families. 12.

Also for sale the SCHOOL BOOKS in general use.

I beg the favor of an acknowledgment, and also information whether a copy for the National Library may be transmitted by mail, or should have private conveyance. My friend, Hon. D. *Fourth Philadelphia Edition*

THE QUARTO EDITION  
OF  
**Scott's Family Bible,**

PUBLISHING BY  
**W. W. WOODWARD,**  
PHILADELPHIA.

The second volume of this beautiful edition of *Scott's Bible*, is now published and ready for delivery. This volume contains nearly *eleven hundred* pages.—Vol. I. with the Preface, &c. about *one thousand*, and Vol. III. now in press, will be *eleven hundred*. The New Testament will be commenced with the life of Dr. Scott in full, which will be contained in two Volumes—making in all *Five large Quarto Volumes*, with a large type, which may be laid before the reader on a table, and read with perfect ease, without the least weariness to the hands or the arms, as must always be the case to those who have octavo volumes, and consequently small type. Subscriptions are still received at 5 dollars in boards—6 in handsome sheep binding, and 7 in calf—one copy for every four purchased or subscribed. Some gentlemen have made legacies of the Quarto edition of Scott, to the amount of several hundred dollars, by subscribing, and taking their extra copies for their children and others. The worthy and pious Rev. Dr. Keith, late of Charleston, S. C. left 600 dollars in his will to purchase "*Scott's Family Bible in Quarto, printed by W. W. Woodward, of Philadelphia*"—all which were taken and paid for, and distributed among families for whom he had a particular affection. This edition is decidedly superior to any copy ever published in Europe or America. His Excellency, the *President of the United States, John Q. Adams*, has forwarded his name, and the whole of the subscription money for the work, and says "*I am glad to possess the Book, not only as a very useful work, but as a creditable specimen of our country's progress in the arts, and of the encouragement afforded among us, to the enterprise of those who apply the most important of them all, to promote the cause of morality and religion.*" Mr. Adams had seen the first volume, previous to the above communication.

W. W. W. has also completed the *VILLAGE SERMONS*, by the Rev. George Burder, four volumes in three; with the Prayers arranged immediately under the Sermons to which they belong.—Price \$4, with a liberal discount to purchasers to sell again.

*RIPPON'S SELECTION OF HYMNS*, handsomely stereotyped. To which is added an Appendix. *By the Rev. Dr. William Staughton*. Price 87½ cents—and 50 cents by the dozen.

*Dr. GILL'S COMMENTARY*, in 9 vols. 4to.; selling at \$30, sheep, and \$35, calf—very cheap.

*BUCK'S DICTIONARY*, handsomely stereotyped. This is the fullest and most complete edition ever published in Europe or America.—\$3.50.—A liberal discount to those who sell again.

Sir  
Some time in last August - a copy of  
the Statistical Dictionary for the year 1844-5 was forwarded  
by mail to the Office of the Secretary of State conformably  
to the Statute respecting the securing of Copy Rights to  
Publications: a certificate of the Deposit is usually issued  
from the Secretary's office, this has now been received by me  
with the answer to several letters written by me upon  
the subject: The Law prescribes that the Deposit shall be  
made within 6 mos. after the Publication of the work; this  
period will expire, in this case, in the month of December;  
of course it is important to me to ascertain whether the Copy  
has been received at the office of the Secretary and to secure  
the Certificate of the same.

Will you have the goodness to make enquir-  
ies for me, upon this subject on your arrival at Washing-  
ton, as soon as your convenience will permit, and advise  
me in relation thereto: respectfully  
Yours

Mr. W. Blay,

Sir,

Three weeks ago this day I inclosed you a copy of Beutley's spelling book to be entered in your office, for the purpose of the more effectually securing the copy right. In my letter, covering the book, I begged that you would forward me the customary certificate, as evidence that the requisitions of the Law of Congress had been complied with. As this certificate has not come to hand, I have supposed it probable, either that the book, with my former letter, had miscarried, or that among the multifarious concerns of your office, it had been mislaid and forgotten. May I again solicit your attention to the subject, by which you will especially oblige

(Note) I was happy to learn at the meeting of the Gen. G<sup>o</sup> Chapter  
of the U. S. held in the City of New York in Sept last, that Masonry  
was spreading very rapidly in South America and  
that it was in a great degree owing to the exertions of  
our M. E. Companion, Poinsett — no doubt but  
it will be of great service to that People both in a moral

the Masonic Chart into the Spanish Language and  
sending out an Edition to that Country — If it would  
not be too great a tax on your time it would afford me  
much pleasure to have your opinion on the subject

to join to it a little package containing an other Copy of the aforesaid book, a little  
pamphlet in french on the making of Maple Sugar over the Atlantic, and a letter  
that I wish to send to Our Ambassador at Paris. M<sup>r</sup>. Brown, and thinking, by

Honored Sir!

I suppose that, by your silence, I omitted the "one thing  
needful," agreeably to the rules of your office, by not sending  
with my last publication what is herein enclosed.  
Half a year ago I sent you from Philadelphia a copy of my  
"Ne plus ultra," demonstrating that the jewels of Freemasonry  
are commemorative and explanatory of Astrology, <sup>arcanes</sup> continued  
by the precession of the Equinoxes, and the consequent mysteries, not  
of the Magnet in the variation of the compass 40 years N. to E.  
40 E. to N. 40 N. to W. 40 W. to N. like the journeying  
of the children of Israel 40 years: all connected with the  
concatenate religion, arts and sciences of Egypt (and ever since)  
If so, I rejoice in the mistake, as it now affords me the  
honor and pleasure of forwarding you another copy with  
the certificate of D. Caldwell, clerk of the Eastern District  
of Pennsylvania. (This document with the necessary one  
from you in behalf of the Washington scientific Sanctuary,  
you will, doubtless, punctually remit me as the law directs,  
and as your predecessors did when I sent him my "Magic  
harmonies".

Permit me, most honor'd sir, to assure you of my high regard  
for you in a political aspect; and that, as I am purely  
disinterested, I can well afford it, I shall rejoice at any  
time to forward you gratis any number of copies of the same  
publication that you may name, for the gratification

In January last, I forwarded by mail from this place, as author and proprietor, a copy of the Mercantile Arithmetic, printed in Boston, directed to the Office of the Secretary of State in Washington, to be deposited there, agreeably to the Law. And not receiving the certificate, as soon as I expected, I wrote to the Hon. John Varnum of this District, requesting him, to enquire if it had arrived at the Office. His answer to that purpose was -- "That the Librarian was absent, and no one could give admittance to the Library -- but one of the clerks said, he recollected very distinctly that your Arithmetic was received, and the reason that a certificate had not been returned, was, that the clerk, who had the charge of that Department, had been sick -- This information he presumed would be sufficient -- This reply was dated Feb 12<sup>th</sup>. and made me easy for the time. I maintain that "such is the wonderful connection of

Lucian Galathea comparing the verses of the 10

Dear Sir

There is deposited in your Office a Chart of the following title "Blunt's New Chart of the North Eastern Coast of North America extending from Lat  $37^{\circ}20'N$ . Long  $75^{\circ}20'W$ . to Lat  $47^{\circ}55'N$ . Long  $62^{\circ}5'W$ ." The Chart was deposited 18<sup>th</sup> of February 1822. Next Wednesday a trial will commence before the Circuit Court of the U. S. involving the Copy right of this Chart & it will be necessary to prove the deposit in the Office of the Secretary of State by a certificate under the Seal of the Department & under the hand of the then Secretary. The one we now have does not recide the title of the Chart correctly, having left out the word underlined above. Will you do me the favor to cause one properly drawn to be transmitted to me by the return mail? ~~It~~ having been only just discovered, that the variation existed, I was not able to prepare for a deposition to prove the identity of the Chart, & must depend on your kindness,

to supply the deficiency.  
I take the liberty to enclose herewith  
Circular, which has been dispatched to  
different Counties in this State, &  
enclose a plan, which is in a train  
execution, to enable our friends to act  
with concert & efficiency in all parts  
of the Union. I have great hopes  
success in the City.

Hon. Henry Clay

Sir, We received the enclosed  
certificate yesterday, and are extremely sorry  
again to trouble the Department -

Our Counsel objects to the term "Paper",  
not being in conformity with the certificate  
received from the District Court here at the time  
of depositing the title - which specifies the  
publication as a Book. We beg the favor  
therefore to be furnished with a certificate sub-  
stituting the word Book instead of Paper -  
so that it may read - "a certain Book  
consisting of one sheet -"

I wrote to you on the 17<sup>th</sup> of June last, to inform you that the receipt of a copy of Johnson & Walker's Dictionary, edited by Joseph E. Worcester, which, in conformity to the requirements of the Copyright law, was transmitted, on the preceding 22<sup>nd</sup> of April to the Department of State, remained unacknowledged. I would, again,

respectfully, request your attention to the subject, as I am very anxious in this instance, by a perfect compliance with its requisitions, to secure to myself all the immunities and privileges of the Copyright law.

Hon. Henry Clay,

Boston, Oct. 18. 1828.

Hon. Henry Clay,  
Secretary of State of the U. S.

Sir, In conformity to the Laws of  
the U. S. respecting Copy rights, I herewith for-  
ward to You, my <sup>author of</sup> Map of Palestine, & Book  
accompanying it, to be deposited in your office,  
which you will have the goodness to for-  
ward to me such certificate as is customary.  
The Certificate to be made out in my individ-  
ual name.

Permit me to inquire —

1. When a map is accompanied by a Book, the  
of which includes both the Book & Map, does the  
require the words "Entered according to Act of Congress," &c. to be  
on the Map, when the District Clerk's certificate is printed on  
back of the title?

2. If so, will the omission of those words on a few  
of the Map have any effect upon the Copyright, if  
the words are inserted on all copies printed after the omission  
discovered?

3. If so, will it answer to print the words "Entered," & put  
types, on a slip of paper, & paste this slip on the Map, so  
that all the copies printed without the words, be can-  
celled?

Respectfully,

Yours &c. &c.

Jas. W. Ingraham

I would have sent a copy of the Map  
& varnished, but had no conveyance to  
ington, but by mail.
